Step-by-step Instructions

01

Start by preparing the various **beads** and **crystals** that will be attached to the safety pin. Insert the head pins and make a loop using the round nose pliers as shown. Trim the excess wire.

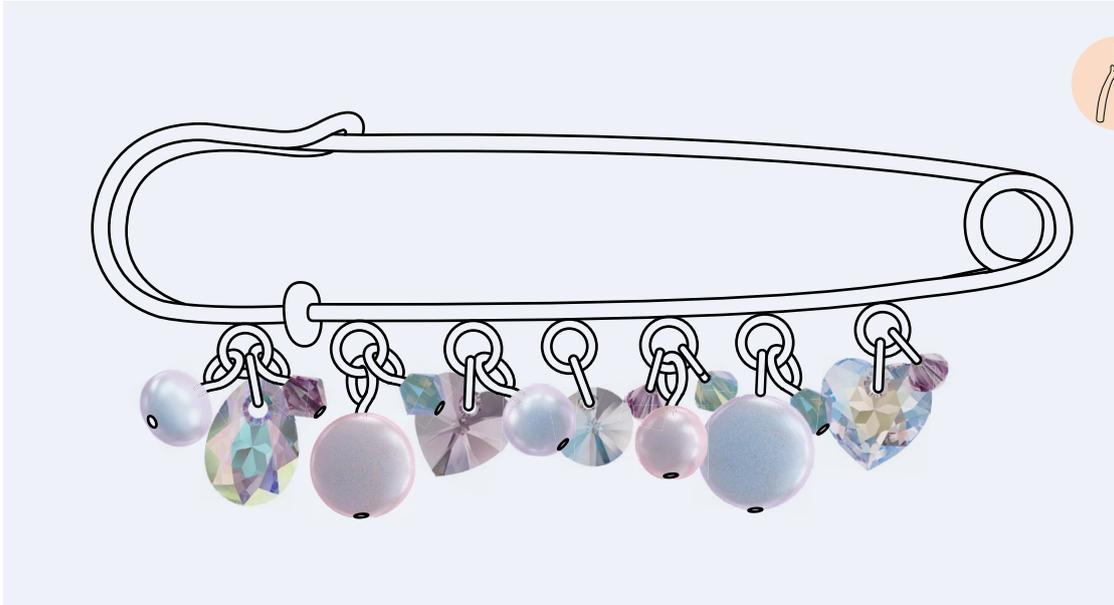

02

Attach the pendants to the safety pin using the 6 mm jump rings.

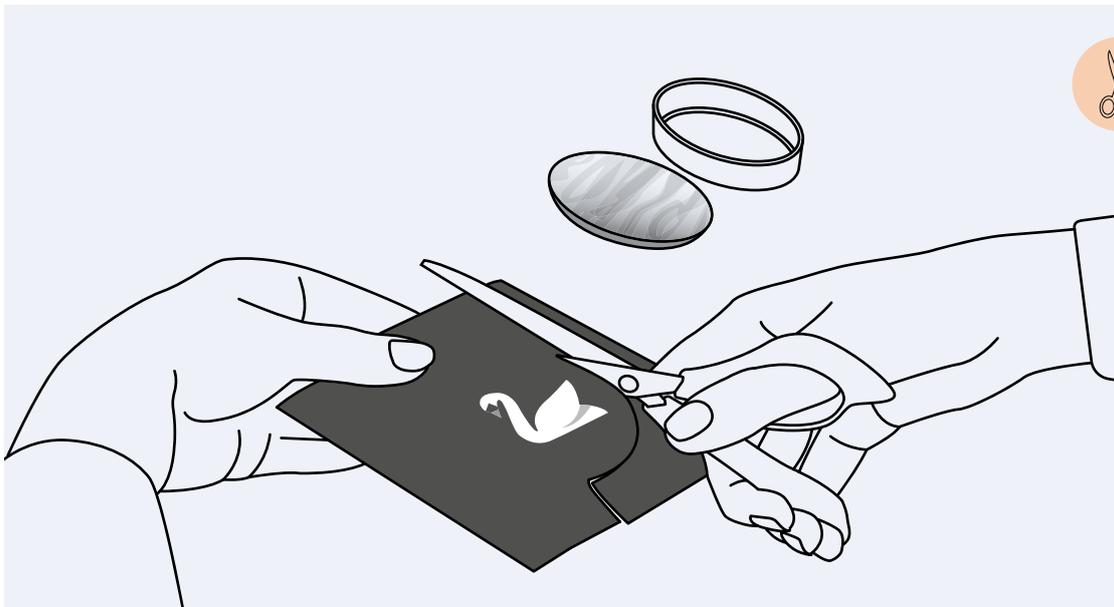

Step-by-step Instructions

03

Follow the sequence as shown in the image.

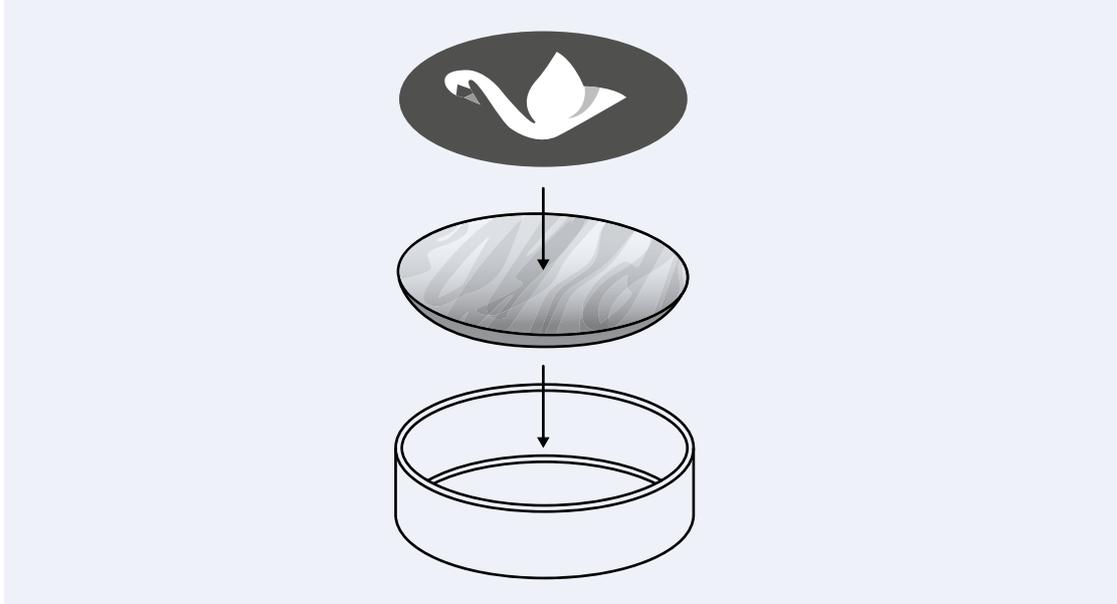

04

Now you're ready to make the Cabochon. Carefully cut around the image you've printed out.

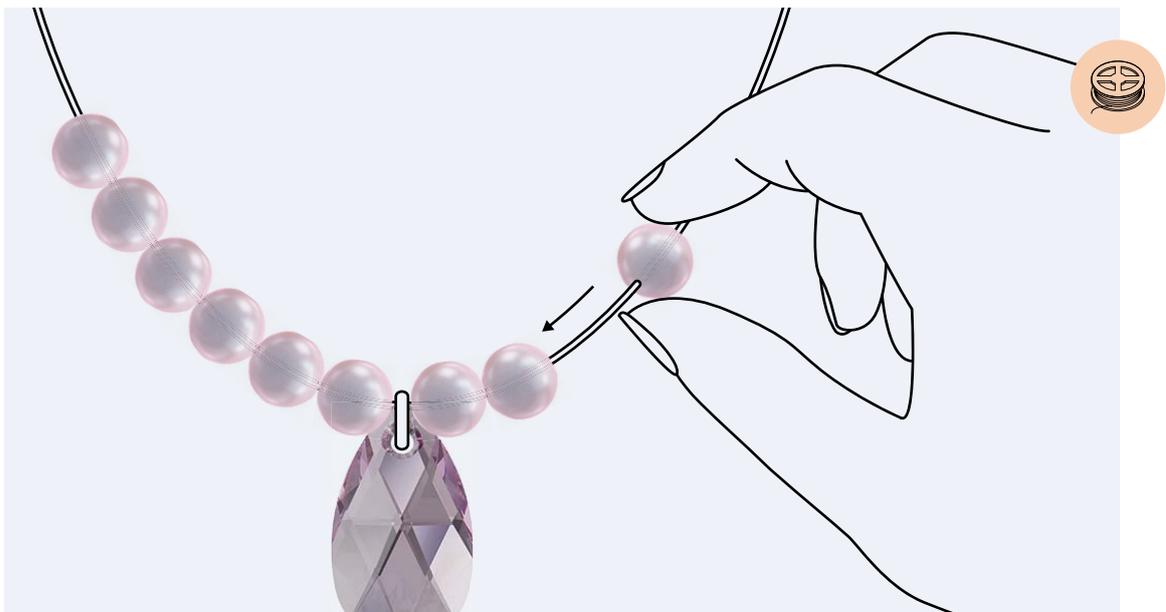

Step-by-step Instructions

05

Place it in the Cabochon setting.

06

Attach a jump ring to the 16mm **pendant** (6106) and thread it onto a piece of wire. Then thread 6 of the **Dreamy Rose Crystal Pearls** (5810) each side of the pendant.

Step-by-step Instructions

07

Cut the gold chain in half using the side cutter. Loop onto the nylon thread, with one half of the chain on each side.

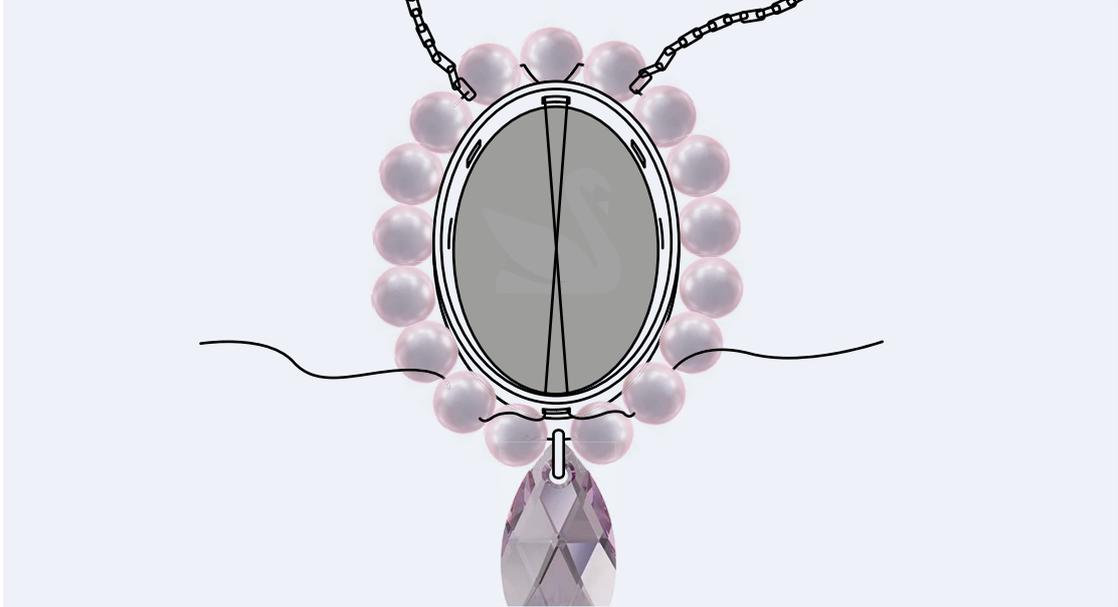

08

Thread 3 more **pearls** onto the nylon wire. Secure by threading through the adjoining **pearl** and closing with a double knot. This creates the ring of **pearls** as shown.

Step-by-step Instructions

09

Insert the Cabochon into the ring of **pearls** and attach carefully, threading through the **pearls** and through the holes in the back of the Cabochon setting.

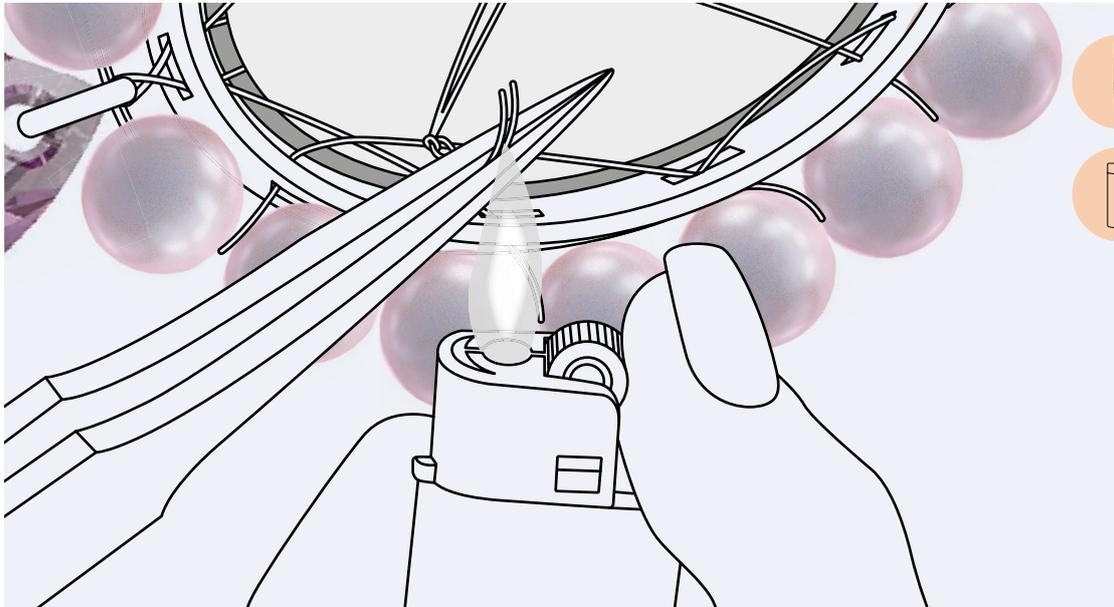

10

Secure with a knot.

Step-by-step Instructions

11

Hold the ends of the wire above the knot with tweezers and carefully insert them into a lighter flame. This will melt the ends and make everything secure.

12

Take a piece of nylon wire and thread the 24 **Beads** (5000) onto it. Tie a double knot to make a ring and thread the ends of the wire back through some of the beads.

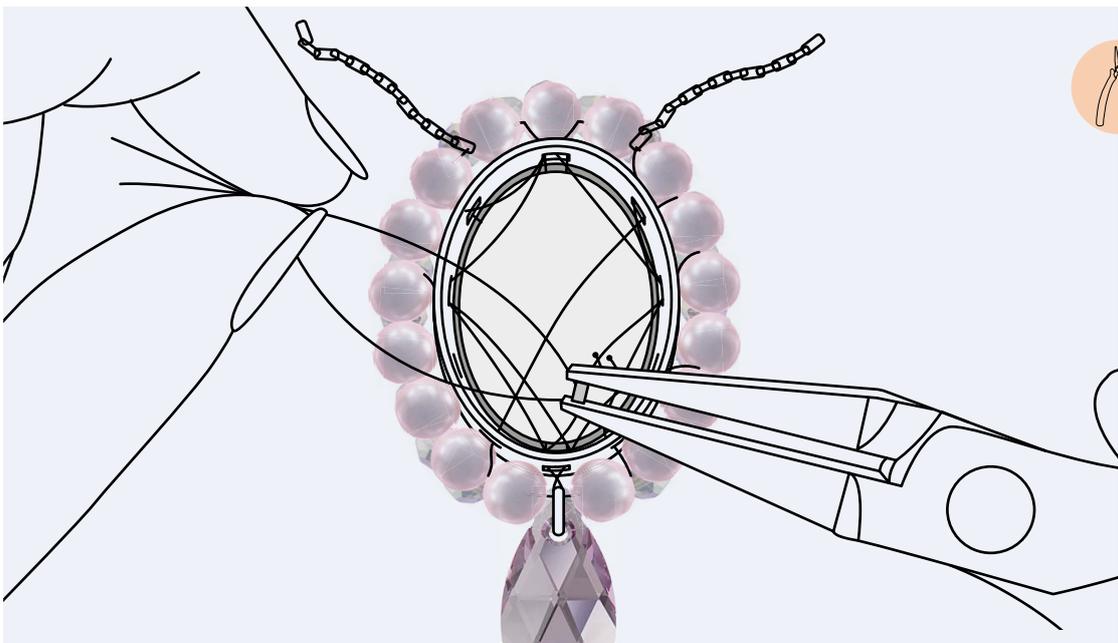

Step-by-step Instructions

13

Attach the ring of **beads** to the ring of **pearls**, threading through back and forward with the wire.

14

Once the 2 rings are securely attached, slip the ends of the wire into a crimping bead and flatten it with the flat-nose pliers.

Step-by-step Instructions

15

Apply glue to the back of the Cabochon.

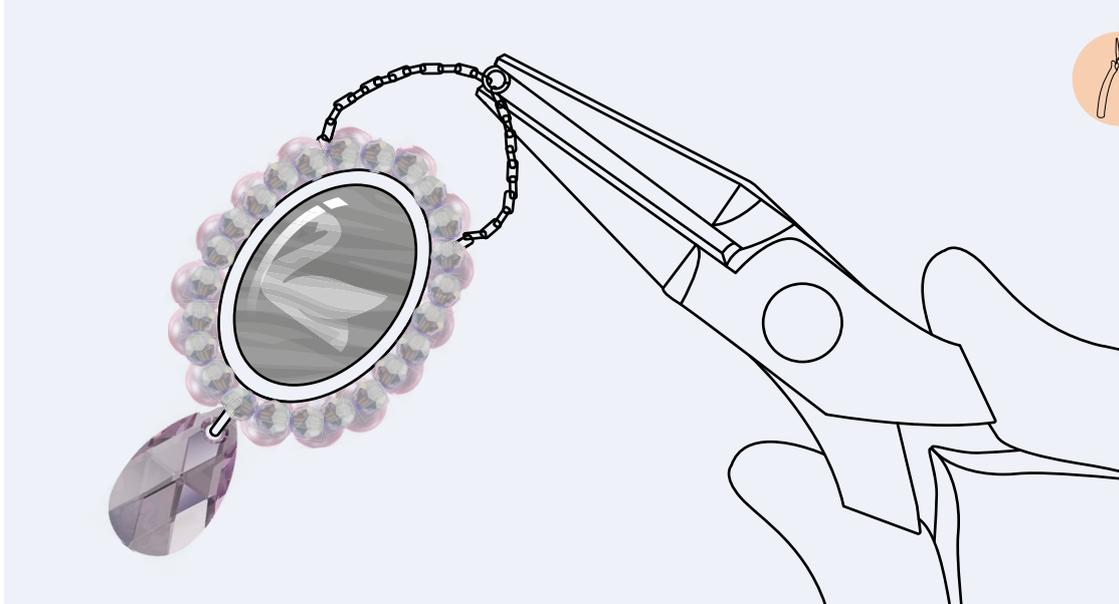

16

Slip the back plate into place, pressing firmly. Leave to dry.

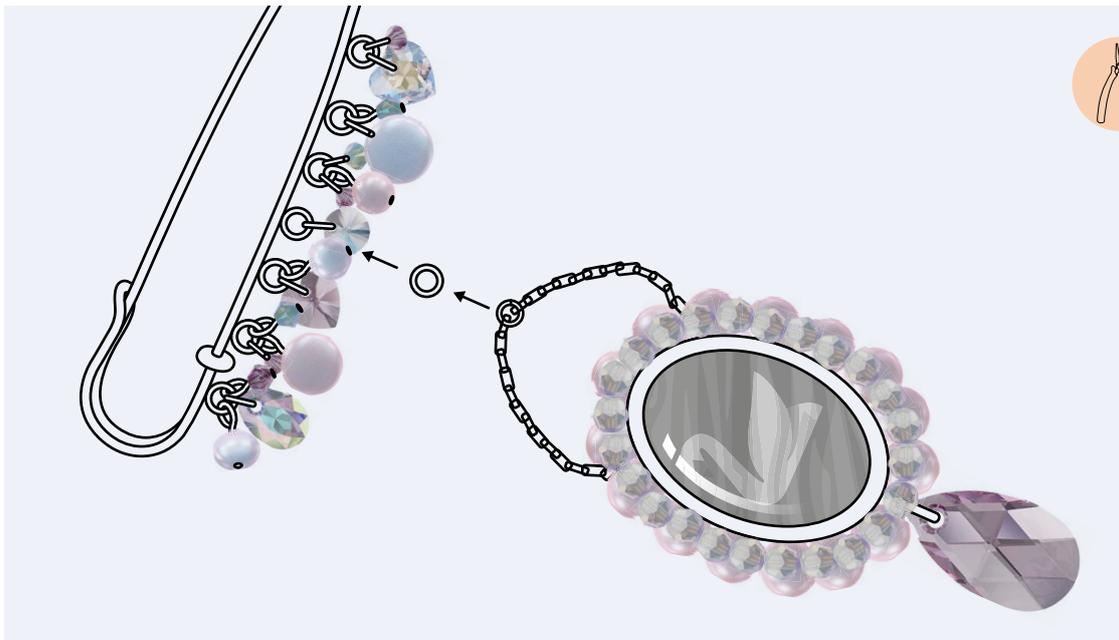

Step-by-step Instructions

17

Join the ends of the chain using a 4mm jump ring.

18

Attach it to the safety pin using another 4mm jump ring.

Step-by-step Instructions

19

Pin it to a plain background, then off you go to wow the crowd.
